FORTY-FIRST YEAR, NO. 43.

CEDARVILLE, OHIO, FRIDAY, OCTOBER 25, 1918

PRICE, \$1.50 A YEAR

TWO DEATHS FROM PNEUMONIA

Paul James Elwood of Atlantic City, a student at Cedarville College, died at the home of Robert Bird Friday night, after an attack of the influenza which developed into pneumonia and other complications. The young man's father, Thomas Elwood, was with him at the time of his death.

The funeral services were held at the Bird home Sabbath afternoon, at 4:30. Dr. McChesney having charge of the services, assisted by Rev. Michael and Prof. Allen. There were many beautiful floral tributes from the community and college. The body was shipped to Atlantic City Sabbath evening accompanied by the father.

PAUL JAMES ELWOOD.

Paul James Elwood entered Cedarville College in the fall of 1916. He came to college with the express purpose of preparing himself for the ministry of the Gospel. He entered upon the combined Arts-Theology course and was a faithful, progressive, and apt student. He was unusually gifted in his thinking and expressions. He entered into all of work and past-time with a full spirit. Students and faculty loved him and had implicit confidence in him. He was deeply interested in the success of the college and in all that pertained to its welfare. Much of his thought and action was given to the Y. M. C. A. and the Orange and Blue Literary Club, of which he was a founder and enthusiastic promoter. He was genial in disposition, patient, unassuming, jovial, possessed of a dry and fascinating humor, pure in thought and deed. He was a Christian by the Bible rule. He took a special interest in church work, particularly of an evangelistic character, earnestly desiring the salvation of his fellow-men.

Though he wished to live and spend his life for all that is best and noblest in life; yet when he faced death, he declared himself ready to go. His first death among the students in Cedarville College during its entire history of twenty-four years, while the college was in session. We shall miss him on every side. How pleasant, however, it is to review his life and work, and influence among us not only without a single regret, save that he is gone, but with gratitude and a benediction upon our lives and our College.

We are better for his having been among us. God had a higher and better work for him in Heaven than earth could afford. He is promoted by One who never errs. We bow in humble submission to the divine Will and in doing so, say that for Paul James Elwood to have lived is Christ and to have died is glory.

William C. Inley, aged 20, popular high school athlete, died Saturday morning at 8:45 at the home of his mother, Mrs. Eleanor Inley. Influenza developing into pneumonia is brought about his death.

The services were held from the home Tuesday afternoon, Rev. J. W. Patton, the boy's pastor being in charge. The house service was short, a large number of the school companions and friends of the family assembling at the North cemetery.

At the grave the choir sang "Beautiful of Somewhere" and "Sweet Bye and Bye".

The lad is survived by his father, Charles Inley, his mother, a sister, Gertrude, a brother, a sailor on the steamerport Harburg, Roy. Roy has been confined in a hospital in New York with influenza but had recovered to enable him to attend the funeral.

The senior class provided a slumber party for the family, also a large floral wreath. The classmate who acted as pallbearer were: Cecil Jeffries, Dewey Corn, Paul Townsley, Cecil Eubank, Harry Hammond and Marcellus Townsley.

CARD OF THANKS.

We wish to express our heartfelt and sincere appreciation to the many friends and neighbors for the kindness and support shown during the illness and death of our beloved son and brother, William C. Inley. We wish also to express our thanks to Rev. J. W. Patton for his words of consolation. Especially do we thank the members of the Senior class for their slumber party, and the beautiful floral tributes.

Mrs. Eleanor Inley and Family.

NEWS ITEMS THAT PASSED THE CENSORSHIP.

Then and Now—

There was a time when everyone pointed to one or two men in the community who owned government bonds. They were always regarded as men of means. Now everybody is expected to own one or more bonds.

Election Day on Sundays—

At a recent meeting of the Federal Improvement Association at Newark, N. J., a resolution was voted down urging that all elections be held on Sundays so that the moral tone of elections would be improved.

Harvest For Doctors—

South Charleston has but two physicians and they report over 200 cases of sickness and urge people not to send for them unless absolutely necessary as they are about worn out.

Must "Flu" Cases—

The State Board of Health has ruled in compliance with an order of the Federal authorities that all "Flu" cases must be reported to the local health officers. There are now about 200,000 cases in Ohio.

It's Always A Fresh Egg—

A hen has a lot of peculiarities: she may lay an egg with a double yolk or an egg without a shell, a large egg or a small one; she may not lay an egg at all but when she does lay an egg it is a fresh egg.

Got Busy In A Hurry—

Antioch college has a Student Army Training Course. Last week orders came from the Government to recruit it up to fifty or it would be moved to Wittenberg. Only seven students were needed to comply with the government order and by making the highways and combining the seven were secured by the time limit of Oct. 20. The college had a scare but everybody got busy to pull in the seven needed recruits.

Must Save Wrapping Paper—

Merchants have orders from the War Industries Board to save wrapping paper and a permit must be signed to be able to buy it. Old papers must be used in wrapping where convenient; eliminate all Christmas boxes for gifts and candy and use backs of envelopes for scratch paper as long as fathers did in the days of long ago.

Twice Around Globe—

If all the printed forms were put together end to end that have been sent from Proctor, Marshall, Crowder, and the office they would cover a distance of 65,044 miles; these required 4,300,000 pounds of paper and 143 postal cars would be necessary to carry them out of Washington.

Holding People Back—

The American people have to be held back even with an epidemic prevalent. The "flu" in Indianapolis caused the authorities to require stores to open at 9:45 a. m. and close at 6 p. m. In Pittsburgh there was no power or in the newspapers until 10 a. m. so that few would want to go to their offices before that time.

Five Hundred Die Daily—

Prof. J. Raymond Fitzpatrick, of the University of Kentucky, in writing to his parents, Mr. and Mrs. Wm. Fitzpatrick, of New Jasper, states there are 500 deaths daily from influenza in Philadelphia. Undertakers are days behind in their calls and not sufficient caskets. One cemetery is using a steam shovel to dig a trench where bodies can be buried temporarily without caskets.

Great Fur Year—

Wm. Marshall says we are to have a great fur year owing to the demands of the government. Skunks and muskrats will bring record prices and anyone who cares to make a little change on the side, skunk perfume thrown in, should arrange to set traps after November 15th.

THANKS, MANY THANKS.

The Herald, edited and published by Karth Bull, of Cedarville, Ohio, is now located in its new quarters which were recently modernized and constructed to house the plant. Editor Bull purchased a new linotype, one of Mergenthaler's model "L" about 10 weeks ago and the machine arrived last week and was erected and is now doing its bit in its new home. Editor Bull is learning to manipulate the type casting machine and is making rapid advancement in his work. The editor of the Home Weekly was called to Cedarville Wednesday night and made some finishing touches on the machine which were giving the operator some slight trouble. The Cedarville Herald is a splendid publication, and with the addition of a linotype to its equipment, its publisher is now prepared to handle all classes of printing. We extend our hearty congratulations to Editor Bull and feel that a vast improvement will soon be noted in the issues of his paper. O. S. & S. O. Home Weekly.

A POPULAR MOVE.

Every day we are asked about the scholarship fund and the Bible chair for Cedarville College. People are interested in both. They want to see the College grow. We appreciate the good-will and generosity of the people. Of course you want to help. Only \$40 buys a scholarship good for one year.

A Liberty bond turned over to Cedarville College is at once put into the endowment for the Bible Chair and becomes a permanent fund. This week we received two scholarships and a handsome Liberty bond. All of these were given without personal solicitation. Will you be next? Rally round your own College. Now is the time to act.

FARM AND FIELD NOTES.

Madison county had two important Shorthorn cattle sales last week. J. W. Evans and Son sold 40 animals both imported and American bred that brought \$22,475, an average of \$560. The highest priced animal was \$1,000.

The Madison Shorthorn Breeders' Association sale totaled 465, an average of \$211 including all stock.

Mr. D. S. Dixon will retire from farming and make a public sale of his stock and implements, Friday, Nov. 1 on the W. H. Barber farm.

A. E. Wildman of Selma delivered 130 head of black cattle several days ago to Swift & Co. that averaged 1300 and were 16 months old. They brought 18 cents and were said to be the best drove from Ohio.

The leader of all sales so far was the Titus sale held last Monday. The Titus farm is a popular one at any time for people to visit and a sale always brings a county fair crowd. A lot of good stock was disposed of and the clerk found himself with \$23,700 when Lamar and Howard Titus left the auction block, and too late to sell the horses at that. —S. Charleston Sentinel.

The farmers are looking after their seed corn for next year with unusual care. On a visit to their places now you will find they have selected the largest and finest ears and have them strung up for seasoning. Not many of them will follow the custom of waiting till spring and make a raid on the crib or depend on selecting it during the winter as they feed. Last year has taught them a lesson.

J. H. Luckey's Poland China hogs last week resulted in the 60 head averaging \$120. The sale was the best he has ever had.

E. E. Finney held a record breaking sale of Jersey cattle last Saturday when 34 head of fine Jersey stock were sold for dairy purposes. The head of mature stock averaged \$202.50 while the general average was \$160. Elmer Kelley of Xenia had 7 head in the sale that averaged \$100. Mr. Finney will hold a Poland China hog sale at his farm, on Saturday, Nov. 9 when 45 head will be sold.

Remember the Turner-Paul public sale on Thursday, October 31.

There were many that thought the Harry Townsley sale last Thursday would not bring in dollars and cents the value of the horses. When the clerk totaled the sale it was found that it amounted to \$3,370, which was about \$1,000 more than Mr. Townsley had estimated for his sale. A few of the colts probably sold low but as Mr. Townsley did not care to winter them he let them go to the high bidder. The hogs and cattle easily made up for any loss on the horses.

Mr. Earl Randall, who has resided on what was formerly the Archer farm, has purchased a new farm, about 40 acres near New Jasper and will move by spring.

Julius H. Barnes, head of the U. S. Administration's grain corporation is out with an interesting proposition. A greater acreage of wheat for next year. In a letter to Senator Hitchcock of Nebraska, Mr. Barnes said a fair yield from the present acreage, with any peace developments opening new sources of supply, would necessitate Congressional appropriation to make effective the present price guarantee. The wheat acreage has been extended until it is liable to be at the expense of the other crops, particularly soybean. Last year's wheat crop was burdensome in many sections, and with increased acreage and a fair crop with peace developments it will require a large amount of money from Congress to make good the present price guarantee.

What about classification of property for taxation? How many farmers are ready to vote on this question? This question has been up before but evidently it has gained friends. The amount of money that is going into the war is vast. It means that some drastic tax legislation can be looked for in the next year or so. The state, county and municipal governments have money as well as the schools and millions going out of the reach of taxation means some new avenue must be opened to provide funds. The Ohio Farmers are viewing the proposition states that wherever classification has been tried larger revenue has been provided. The claim is that intangible property will be returned and is returned in the states that have this law. The uniform rate such as we have has produced so many injustices, which really amount to illegal and unfair classification, that the amendment providing a fair and legal classification is worthy of support.

CONCERNING SAUERKRAUT

IS sauerkraut pro-German? No, it's the friendly enemy—which means you can make and eat this delectable dish without injuring your patriotism in any way. Its origin is Dutch—and the ingredients are American, so go right ahead with your sauerkraut. First cut the heads of cabbage into long fine shreds and put them into a big jar in layers, with salt sprinkled between the layers, each layer down with about wood weight. After 20 days the process of curing will be complete if bubbles have been used to rise at the edges of the jar. If then is ready to be served, either raw or cooked. —U. S. Food Administration.

MILLIONS FOR OUR BOYS OVER THERE

Ohio Facing Its Biggest Money Raising Campaign.

DRIVE TO BE MADE NOV. 11-18

Money to be Used in Providing Physical, Mental and Spiritual Comforts For American Soldiers Overseas and in Cantonments Here and Will be Distributed by the United War Work Organizations—District and County Quotas.

Columbus, O., (Special.)—With the record-breaking Fourth Liberty Loan campaign brought to a successful close, Ohio now faces the biggest money raising campaign for war work that it has ever known. During the week of Nov. 11 to 18, Ohioans will be asked to give \$10,000,000 to the United War Work Campaign, "for the boys over there." The national quota is \$170,000,000.

Never before has the public of the Buckeye state been asked to make such a donation for anything. The money collected will be used in providing physical, mental and spiritual comforts for the American soldiers overseas and in the cantonments of this country.

The United War Work Campaign is composed of these seven leading war work organizations, which have been recognized as being essential by the War Department: The Young Men's Christian Association, the Young Women's Christian Association, the Knights of Columbus, the Jewish Welfare Board, the American Library Association, the Salvation Army and the War Camp Community Service.

Of the amount raised during the campaign, 58.55 per cent will go to the Y. M. C. A., 8.80 per cent to the Y. W. C. A., 17.89 per cent to the Knights of Columbus, 8.80 per cent to the War Camp Community Service, 2.05 per cent to the Jewish Welfare Board, and the same amount to the American Library Association and the Salvation Army.

To facilitate the campaign, Ohio has been divided into seven districts, and a quota has been set for each district. The quotas for each county, which have been divided into counties, with a quota for each county. District and county quotas, as announced today by state headquarters here, are:

One of the features of the campaign, which will be under the direction of F. W. Ramsey, a prominent business man of Cleveland, is that more than two-thirds of Ohio's quota of \$10,000,000 will be raised in war chest communities, where no direct appeal for funds will be made to the people.

Ohio has gone "over the top" in every campaign for funds during the war, and United War Work Campaign officials are predicting that the state will do itself proud in this next campaign. The coming campaign will be for more than twice the amount of money raised by the last Red Cross drive, and with the exception of the Liberty Loan campaign is the largest money-raising of any kind ever staged in Ohio.

JOHN M. TARBOX.

John M. Tarbox, one of the oldest residents of Cedarville, died at the home of his daughter, Mrs. W. H. Barber, Thursday evening, Oct. 17, about 7 o'clock, aged 88 years, 10 months and 14 days.

He had been in failing health for the last three years, but was confined to his bed only for the last few weeks.

Surviving are the following children: Mrs. W. H. Barber, Mrs. S. K. Williamson, W. J. and T. N. Tarbox. He was a member of the United Presbyterian church.

The funeral services were held Saturday afternoon, at 1:30 o'clock and were private, because of the quarantine. The pall bearers were: W. J. Y. N. A. Tarbox, Judge C. H. Kyle, S. K. Williamson and W. H. Barber. The interment was made in Massias Creek cemetery.

FOURTH LIBERTY LOAN OVER WITH A WHOOP

The campaign for the Fourth Liberty Loan ended Saturday and not only the nation but the state, when Greene county and Cedarville township went over as if it was no effort. It is estimated that 25 million people in this country subscribed for the Fourth issue.

The quota for the county was \$850,000, and over a million was subscribed.

Cedarville township's quota was \$66,500, and Chairman L. L. Smith, of the local committee, informs us that the subscriptions amounted to \$125,000.

WEATHERMAN HELPED TO CONSERVE GASOLINE SUNDAY

The ban was lifted on the gasless Sundays, so far as the fuel administration was concerned last week. While authority was permitted to contribute to Uncle John D's cause there was a check on Sunday driving due to the weatherman. It was a poor day to enjoy an auto ride and few ventured out.

ONLY AN APPLE CAR.

The crowd that gathered about the railroad Tuesday resembled the line-up last winter when coal was sold in 500 pound lots, other than sleds being used, while automobiles held sway Tuesday. R. Bird and Sons Co. received a car of apples, more than 600 bushels, and they went like hot cakes. A large number were turned away late in the day as the supply was exhausted.

NEXT CLASS IN ORDER.

Chairman R. D. Williamson, of the local draft board informed the Herald Tuesday that the questionnaires for the second class from thirty-seven to forty-five would be mailed some time this week. The work of classifying the others having been completed.

UNCLE SAM, PROHIBITIONIST

Uncle Sam is making a fairly good record as a prohibitionist. Here are some of the things he has done:

- Made the army and the navy dry.
- Put the dry zone about each training camp.
- Removed all saloons from government and railroad property.
- Made the Dist. of Columbia, Alaska, Porto Rico and Hawaii dry.
- Stopped the manufacture of whisky.
- Cut down the manufacture of beer over one half.
- Barred liquor advertisements from the mails.
- Barred shipments of liquor by mail or parcel post.
- Stopped shipments of liquor from wet into dry territory.
- Submitted a national prohibition amendment.
- Stopped manufacture of beer after December 1, 1918.
- Stopped imports of wine after May, 1918.

And now he is adopting absolute nation wide bone-dry prohibition of the manufacture and sale of all intoxicating liquors until after the end of the war and the demobilization of the arms and navy. And while war-time prohibition is in operation, the American people will make the nation dry permanently by completing the ratification of the national prohibition amendment.

FRIDAY, OCTOBER 25, 1918

If you are in a hurry nobody else ever seems to be.

Some think they have temperament when it is only bad temper. It is no disgrace to be poor but it's nothing to brag about unless you are running for office.

A Southerner in discussing the fixing of a price on cotton states that the Northern people do not understand cotton. That may be so but how much do the Southern congressmen know about fixing the price of wheat, which was done, and not on cotton?

The government will not bring any more suits against big business during the war. This is fine but we would feel safer if the government would tie the hands of the sheriff against selling our property, not only for the duration of the war, but two years thereafter.

The time to talk Peace is after we have entered Berlin.

The response to Dr. McChesney's appeal for support of the college, which appeared in these columns some time ago, proves that Cedarville people are always loyal to worthy persons and Christian institutions.

Slowly but surely the steel ring around the central powers is being drawn tighter and tighter.

Henry Ford subscribed for seven million of the Fourth Liberty Loan. Not so bad for one who squandered \$350,000 on a peace ship a few years ago.

We opened a letter a few days ago and at the head appeared the following that would appeal to any man, regardless of his station in life. "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are liberty and the pursuit of happiness." That's really all there was to it, two page letter and we could endorse such a sentiment but the appeal of the Liberal organization didn't seem to impress us in that manner.

Many who have pride in nothing else are proud of their diseases and others of their unhappiness and others just proud of their pride.

As this war closes the nations will be starving for gold. The United States should be saved for its own people. England is a country of financiers and many now predict that she will emerge from this conflict with her banks filled with gold. This country is nearly, if not altogether, under English influence at this time as to financing this war. A change in the political complexion of the House at the coming election will be a safe guarantee that America will be saved for Americans.

FARMERS' INSTITUTES ANNOUNCED.

The following are the dates of the five farmers' institutes to be held this winter in this county: Spring Valley, Jan. 3-4. Yellow Springs, Jan. 6-7. Bellbrook, Feb. 3-4. Jamestown, Feb. 21-22. The Extension School will be held at the Beavercreek High School Dec. 16 to 20. Ross Township, Feb. 21-22.

Mrs. Foy Troute, wife of Dr. Foy Troute, who is stationed at Camp Meade, Md., has been seriously ill with plural pneumonia at the home of her parents, Mr. and Mrs. John Diffendall. Mrs. Troute and little son were with their husband and father at the camp when she was taken sick. Dr. Troute returned yesterday as his wife is some better.

Lieut. Forest Dundle, of Xenia, formerly of this place, has returned from France and is the first commissioned officer from this county to be discharged for physical disability. Lieut. An appeal to give to Our Soldier Boys, by the Seven Organizations working directly with the United States Army under direction of the Government

Your Soldier Boy is Calling YOU!

These are the Very Words He is sending back home to You about the Work of these Great Organizations. Read each word carefully

"To the folks back home; from the camp, cantonment and from the battle-scarred fields of France, we want to tell you of the magnificent work of the United Organizations. We know that there isn't father, mother, sister, sweetheart or friend in America that wouldn't like, each day, to stand beside their soldier boy, take his hand in theirs and tell him of their interest, pride and love for him for the part he plays in the battle that is to bring safety, security and happiness to the home you love so well. It would be wonderful for you to do this."

"But these great organizations are taking your place. The thousand things you send, they give; always with us everywhere, they provide and cheer. They seem to think of everything—we could not get along without them. Give all you can, help all you can. Magazines, papers, books, music, movie shows, entertainments and talks, athletic goods, smokes, canned fruits, chocolate bars, Testaments—and what is not least, a smile and a word of cheer. It helps and helps a lot—it will quicken the day that victory will be ours—it helps to tell us how much you care, and that is everything."

The United War Work Campaign November 11 to 18

This year to keep up the big work already started we will need \$750,000,000. This goes to Ten Million Six Hundred and Fifty Thousand. This means that every man, woman and child must put their shoulder to the wheel and give their very best in time and money in order that our boys at home and abroad are remembered as they should be.

JAMESTOWN WILL VOTE FOR LIGHT LEVY

Jamestown will vote for a special levy for electric lights at the coming election just as council has provided for here. Under the present law there is no way for council to provide funds other than having the people approve the levy by popular vote. The old law permitted a levy for ten years but five years is the limit under the new law. You will get a special ballot when you go to vote. This proposition must be endorsed by the people. We cannot afford to allow the town to be in darkness. As a matter of safety the lights are a necessity. Again civic pride prompts us to have a modern lighting system, as good if not better than our neighboring towns.

MUSIC IS AN ESSENTIAL

Our Government

—as well as those of our allies has found that music, whether on the field of battle—in the trenches or in the home, is one of the greatest factors in keeping up the "morale" of her soldiers and of the people at home—

For that reason, the government of the United States has fostered the manufacturing of Talking Machines by placing them in Class C, thus giving them priority over manufacturers of non-essentials in securing the materials for the manufacturing of this greatest of all musical instruments—the one means of bringing to every camp and into every home the great musical artists of the world.

The patriotic music which stirs our soldiers to deeds of bravery will also sustain the people in this great struggle and give them courage to bear their part of the burden.

The Home's Greatest Charm

How a heart rejoices in a happy evening around the piano, no matter how humble or grand the surroundings, no matter how old or young the listeners, one and the same atmosphere is created in every home by making music a part of it. It warms the soul and creates kindness, sympathy and love in the hearts of all. Can the influence from such a beautiful art be anything but good?

Drink is the Kaiser's Chief Ally

It wastes food products. It wastes labor. It wastes human life, and it disqualifies many of our young men for service in the army and navy. The United States Surgeon General reports: "More than half of army rejections are due to drink." Gen. Leonard Wood says: "Booze is the soldier's worst enemy." Secretary Daniels says: "If a man would shoot straight, he must live straight."

J. W. JOHNSON CHAIRMAN UNITED WAR WORK COMMITTEE

Mr. J. W. Johnson has been named as local chairman of the United War Work Committee, in connection with the county organization of which Jno. W. Prugh is county chairman.

The object of this committee is well known to all having in charge the coming campaign for the Y. M. C. A. and other allied branches of aid that is supporting the boys in the camps and abroad. This campaign is just as necessary as the Liberty Loan or Red Cross and the way the boys write home about the work of the Y. M. C. A. you cannot overlook the lending hand.

There will be a small incidental expense in putting on this campaign in the county and each township is expected to bear its share of the expense which cannot be paid out of the receipts of the campaign.

The amount to be raised in the nation is 170 million, while Ohio's share will be \$10,000,000.

**SERGEANT JOHN COLLINS
MEETS CEDARVILLE BOYS**

Sergeant John Collins in writing to his parents, Mr. and Mrs. A. G. Collins, from France, October 1st tells of meeting Wallace and Edwin boys of this place at a band concert, both of whom are members of the band. He also met Cecil Burns at

Sergeant Collins in company with Wilbur Corry, Knobby Rupp and Briggs, of Washington, C. H., left for further training at an Infantry school on Oct. 3rd. He writes very interestingly of the rifle range which were held between the 329th and 380th regiments. Fifteen men being on each team. Last spring the 329th beat the 380th at Camp Sherman, but on both of these later occasions the 380th were ahead.

The first match Sergeant Collins was first place, the second he tied for second place, two points behind the first man's score.

The officers of the regiment gave the team a seven course dinner in recognition of their success.

Capt. Edmunds has recently been made Major, but is still in charge of the Regiment of which Co. F is a part.

**TIME CHANGES SO YOU HAD
BETTER TAKE NOTICE**

The powers have decreed that day light saving is an impossibility at this season of the year, so we are to turn back at 2 A. M. on Sabbath, Oct. 27. We then are to drop the hour we gained some months ago.

Some experts on time pieces say we should not attempt to turn our clocks back but should stop them for one hour. It is understood that the railroad trains will stop wherever they are for one hour.
